PI-CFO | Oblique launches | inferred Re=30.314

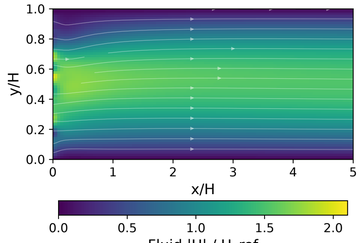

01 Given particle paths

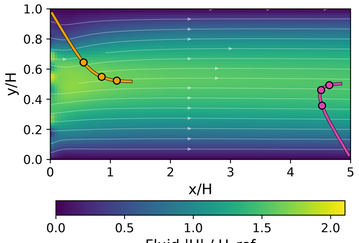

02 Inferred inlet profile

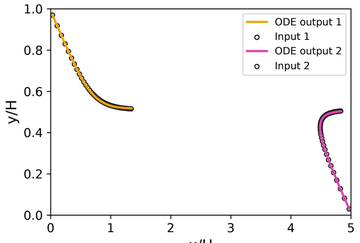

03 Inferred carrier flow

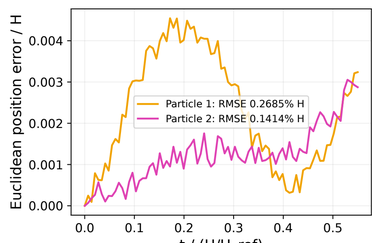

04 Particles in that flow

05 Input / output overlay

06 Time-aligned mismatch

Panel 02 is the inferred inlet, not the hidden generating profile. Open circles: input paths; lines: independent particle ODE. Path agreement does not establish unique or globally accurate flow.
